

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PREFACE.

THE Town of Yarmouth, as comprised within the limits recognized in the following Directory, is second only to the city of Halifax, in Nova Scotia, in population; and it probably holds the same relative position in the aggregate wealth of its population. By a careful calculation made by the compiler of this Directory, that population is computed at—in round numbers—8000 souls. A large proportion of the property owned in the place consists of shipping. Indeed, the port and town of Yarmouth, in proportion to its population, owns more shipping tonnage than any other port in the Dominion of Canada. On the 1st day of January, 1890, its shipping amounted, in the aggregate, to 103,125 tons. Of late years, Yarmouth has become somewhat noted for the enterprise and activity displayed in the development of its manufacturing industries. Of this, ample evidence may be gathered from the following pages. Its trade is brisk, healthy, and growing, as the following table, compiled from official returns, will show:

Year ending June 30.	Imports.	Exports.	Duty Paid.
1885	\$515,362	\$627,909	\$80,732.21
1886	487,721	509,806	85,038.86
1887	476,391	459,869	75,900.57
1888	518,828	668,624	80,863.38
1889	644,055	770,157	95,520.69
1890	674,974	675,729	93,014.76

It will thus be seen that the aggregate trade of Yarmouth for six years amounted to \$7,029,423, or (excepting the three capital cities) greater by over a million dollars than that of any other port in the maritime provinces.

Yarmouth has direct steam communication, every comfort and facility ensured, with Boston, U.S., with St. John, N.B, with Halifax and the intermediate ports, and with ports in Digby County. In the course of the current year (1890), it will be in unbroken communication by railway with Halifax, and thus will be connected with the great railway system, not only of Canada, but of all North America.

Yarmouth contains 13 places of public worship, viz. :— 2 Church of England, 2 Roman Catholic, 3 Close Communion Baptist, 1 Free Will Baptist, 2 Wesleyan Methodist, 1 Presbyterian, 1 Congregationalist, and 1 African Methodist Episcopal. The educational interests of its youth are looked after by a County Academy, and 4 large section schools, besides several private schools.

Yarmouth is prettily situated upon gently undulating ground, slightly elevated above the tidal waters of its harbor. Its buildings, although mainly constructed of wood, are, for the most part, of a substantial character ; and its dwellings, in the greater number of instances, betoken a degree of thrift and good taste, in the dwellers, which enable Yarmouth to compare more than favorably with other Canadian towns of equal population.

Lodge and Society Meetings.

MASONIC:

HIRAM LODGE, A. F. & A. M., meets in Keith Hall, (Eakins Building) first Monday of every month.

ASSESSMENT SYSTEM.**The Mutual Relief Society**

OF NOVA SCOTIA.

Organized August 1881: Registered under the Insurance Act, 1886.

HOME OFFICE, YARMOUTH, N. S.

A. C. ROBBINS, President.

Cash in Bank, Dec. 31, 1889,	.	.	.	\$13,836.53
Number of Members,	.	.	.	1,960
Amount of Certificates,	.	.	.	3,429,500.00

THIS Society was organized for the purpose of providing Life Insurance at actual cost, and, after eight years' experience, the officers claim that the promises made to the public have been fulfilled.

Certificates issued for one, two, and three thousand dollars.

THE COST.

Admission fee of eight, nine, and ten dollars when making application. *Assessments*—One in advance (according to age), if application accepted; further assessments as called for to meet death claims.

Each member has to pay the cost of his own insurance—no more. If a member aged 41 holds a certificate for \$1,000, he has to pay \$1.00; while another member of the same age, holding certificate for \$3,000, has to pay \$3.00 each assessment.

EXPERIENCE.

Our experience has been that, from six assessments per year, all death claims have been paid, and several thousand dollars placed at interest as a reserve.

SECURITY.

In addition to the thirteen thousand dollars reserve in Bank, we have two thousand members who remit promptly as often as assessments are made.

For full particulars of the plan, consult our Agents or write to
MUTUAL RELIEF SOCIETY,

THOMAS B. CROSBY, *Manager.*WILLIAM V. BROWN, *Secretary.*

Syrup of Horehound and Boneset

FOR COUGHS AND COLDS, GREAT PREVENTATIVE OF LA GRIPPE,
PNEUMONIA, CONSUMPTION, ETC.

While thanking our patrons for the patronage bestowed on the late firm, we hope by strict attention to business to merit a continuance of the same to the new firm, under a new system which we have adopted, viz., the cash system. We propose to sell on a strictly cash basis and, as an equivalent, will reduce the price of our Goods, which will be a great advantage to the customer. Call and see our goods and get our prices before purchasing elsewhere.

TO DEALERS IN THE COUNTRY:

Send for our Price List, we know we can sell cheaper than you can purchase elsewhere.
